# BANK OF HAWAII SHARE OF LABOR

\$71 Out of Every \$100 Earned Last Year Went to Workers or For Labor-Made Material.

FOUR P. C. FOR SHAREHOLDERS.

About The Same for Bondholders-Estimtes Made by Vice President Brown of The N. Y. Central.

New York Times: What became of the \$2,585,913,000 gross earnings of the rallroads of this country last year is a question which W. C. Brown. Senior Vice President of the New York Central, set about to learn a little while ago. The result of his investigations has been made public and per cent to 89.5 per cent. Other inin doing so he answers the question.

Mr. Brown says \$71 out of every \$100 earned by the railroads in 1907 was almost immediately redisbursed In payment for labor or equipment and material, of which labor forms by far the largest component part. He says that the railroads receive more and keep less than almost any other department of business activity in this country.

Out of every \$100 earned by the railroads, he says, only \$9 goes to the owners, the shareholders, representing less than 4 per cent on the face value of the securities.

The result of Mr. Brown's investigations was contained in an address made last week by him before the Illinois and so gradual as to cause little com-Manufacturers' Association. "In mileage the railroads of the Unit-

ed States approximate 225,000 miles," said Mr. Brown. "They employed in 1907 in the neighborhood of 1,675,000 phenomenon of steadily rising values men, and their gross earnings amounted to \$2,585,913,000, or more than \$7,-000,000 for each of the 365 days of the year. Figures of the magnitude can political economist today, and to its be better comprehended by comparison, and it may be stated that the number of employes on the payrolls of American railroads in 1907 was only about 80,000 less than the standing armies CURE THAT COLD WHILE YOU CAN of the United States, Great Britain, Germany, France and Japan combined. Their gross earnings were three times | would cost you right now than to run the total revenue of the United States | the risk of a cold developing into pneugovernment; twenty-nine times the monia, which may mean a big doctor's total gold production of the United bill. For sale by all dealers, Benson, States and six times the total gold pro- Smith & Co., agents for Hawaii.

duction of the world. "Let us see how this vast sum of money is disposed of by the railroadswhat becomes of it.

LABOR ABSORBS THE MOST.

"Out of each \$100 earned, \$40 are diectly and immediately paid out to employes on the payrolls of the railroads. Eight dollars are paid for fuel, waste, oil and water; and \$7 of the \$8 go to pay for labor required to produce these supplies. Eighteen dollars are paid for steel raus, ties, cars, engines, structural steel, stationery, and thousands of other things necessary in the operation of a railroad. Of the \$18, approximately \$16 go for labor.

"Five dollars are paid for permanent improvements, such as additions to yards, additional tracks, additions and extensions of shops, roundhouses, and the like; and \$4 of the \$5 are paid for

"Three dollars go to pay taxes; \$2 for rent of terminals, joint track, etc. "Fourteen dollars are paid as interest on bonds, which represent borrowed money for original construction or subsequent improvements; and this sum amounts to less than an average of 4 per cent, on the face value of the

"Nine dollars go to the owners of the railroads-the shareholders-representing less than 4 per cent on the face value of the stock.

"One dollar is put into the surplus fund to provide for necessary improvements to the property and as a reserve against periods of hard times.

"Approximately \$71 out of every \$100 earned by the railroads of the gountry are, therefore, almost immediately redistributed in payment for abor, or equipment and material, of which labor forms by far the largest most any other department of business activity of the Nation.

GOOD PRICES FOR THE FARMER. "During the ten years from 1897 to 1907 the United States has enjoyed an almost continuous and uninterrupted advance in prices of the product of its farms, factories, and mines. With a succession of bountiful harvests the price of grain has steadily advanced until the prices of 1907 show increases over those of 1897 as follows:

	Per	Cent
Corn		96.2
Oats		
Rye		63.5
Barley		76.6
Wheat		8.2
Buckwheat		65.8
Potatoes		12.8
Hay		70.4
"With a full, normal" is	acrea	se an

Carriage manufacturers and repairing no disease or epidemic to deplete our flocks and herds, values have increased marvelously. Notwithstanding the advent of the automobile, horses and mules show an increase in value of more than 150 per cent. Milch cows

### show an increase in value of 32 per cent; sheed, 113 per cent, and swine,

"The products of forests made an equally marvelous showing, having advanced as follows:

4.5	THE RESERVE
Yellow pine	77.1
White pine	44.7
Hemlock	53.4
Oak	57.9
Poplar	72.6
Cedar	
Ash	.53.7
Chestnut	30.8
